

Brief Report on One-Day Career Counseling Seminar

Title: *Geospatial Technology and Educational Strategies for Earth Science Students*

Date: *10th September 2024*

Venue: *Dimoria College, Khetri*

Organized by: *Department of Geography, Dimoria College*

In Collaboration With: *Skyline Geoinformatics*

Resource Person: *Ms. Sneha Neog, Geospatial Expert*

A **one-day career counseling seminar** on “*Geospatial Technology and Educational Strategies for Earth Science Students*” was successfully conducted on **10th September 2024** at **Dimoria College**, organized by the **Department of Geography** in collaboration with **Skyline Geoinformatics**.

The seminar aimed to familiarize Earth science students with the scope and applications of geospatial technology in both academic and professional fields. **Ms. Sneha Neog**, a geospatial expert and invited resource person, delivered an insightful session on **GIS, remote sensing, GPS technologies**, and their integration in fields such as environmental studies, urban planning, disaster management, and Earth system sciences.

Students were also guided on career opportunities, internships, government and private sector roles, and strategies for pursuing higher education in geoinformatics and allied disciplines. The session concluded with an interactive discussion, during which students actively engaged with the speaker to clarify doubts and explore learning paths.

Objective:

To guide Earth science students on the academic and professional prospects in geospatial technology and equip them with strategies for higher education and skill development.

Benefits:

Students gained exposure to real-world applications of geospatial tools and understood their relevance in Earth sciences.
They received practical advice on building a career in geoinformatics and aligning academic goals with industry trends.
