One day legal awareness programme on procedural guidelines and Cyber law dated 7<sup>th</sup> February, 2020

**Awareness programme against social evils organised**

**CORRESPONDENT**

JERAMBA, Feb 26. A one-day scientific awareness programme titled "Sanskar = Manuho Manuho Baba", was organised by Mission Barubaba today at Dimoria College, Khariy in order to create a scientific temperament among the masses against superstitious beliefs, especially witch hunting.

The programme was organised in collaboration with IQAC of Dimoria College and was supported by the Assam Science, Technology and Environment Council (ASTECC).

Speaking at the event, senior scientist Barubaba Barua who runs Mission Barubaba, found literacy and lack of scientific approach towards any problem in society as the reasons behind the practice of superstitious beliefs such as witch hunting.

She also explained how absence of scientific officers in rural areas forces people towards health problems to go to others (third parties) for treatment. These others who motivated, are the main culprits behind the branding of victims, mostly women, as witches and hold their responsibility for all evils in society.

IQAC Special Branch Hiroo Nath also spoke on the means and asked the students to take forward the message spread by the NDA to their families and schools to enlighten victims.

ASTECC Director Dr Arun Mitra, ASTEC Deputy Director Dr Indrakumar Baruah, Principal of Dimoria College Pranjit Barua, state coordinator of Mission Barubaba Dr Nayabon Das and ACP Sergeant Abhoyan Doley among others were present at the event.

Earlier, artistes of Maachharashan Centre Sri Perikoneing Arts presented a skit in which they beautifully showed how a woman is termed a witch for personal benefits of some jagruti.

Manojan Khanolasha North Brahman highlighted social evils through music.

...of the retention of the workshop...  
...which also involved a new...
