Oath for the Youth

- I will have a goal and work hard to achieve that goal. I realize that small aim is a crime.
- I will work with integrity and succeed with integrity
- I will be a good member of my family, a good member of the society, a good member of the nation and a good member of the world.
- I will always try to save or better someone's life, without any discrimination of caste, creed, language, religion, or state. Whenever, I am, a thought will always come to my mind. That is "What can I Give".
- I will always protect and enhance the dignity of every human life without any bias.
- I will always remember the importance of time. My motto will be "Let not my winged days be spent in vain".
- I will always work for clean planet Earth and clean energy.
- As a youth of my nation, I will work and work with courage to achieve success in all my tasks and enjoy the success of others.
- I am as young as my faith and as old as my doubt. Hence, I will light up then the lamp of faith in my heart.
- My national flag flies in my heart and will bring glory to my nation.

MESSAGE

From the Honorable President, Governing Body

Dear Esteemed Prospective Students,

As the President of the Governing Body of Dimoria College, I am honored to extend my warmest greetings to each of you as you embark on this pivotal journey towards higher education. With great pride and anticipation, I pen these words of gratitude, welcoming you to explore the endless possibilities our esteemed institution offers.

I want to express my heartfelt appreciation to all who have chosen to consider Dimoria College for their academic pursuits. Your interest in our institution is a testament to our reputation as a beacon of excellence in education. We are thrilled to welcome a diverse and talented cohort of individuals, each bringing their unique perspectives, passions, and dreams to our vibrant campus community.

At Dimoria College, we have always been dedicated to nurturing a culture of innovation, academic excellence, and personal growth. We believe in providing our students a supportive environment that fosters curiosity, critical thinking, and a lifelong love for learning. Our esteemed faculty members will carefully evaluate each application throughout the admission process, recognizing and celebrating every applicant's unique strengths and potential.

Choosing the right educational path is a significant decision that profoundly shapes your future. Our admission process is designed to be transparent, equitable, and thorough. We value academic achievements and our applicants' character, passion, and extracurricular pursuits. Our goal is to cultivate a diverse community of scholars where students can learn from one another's experiences and emerge as well-rounded individuals poised to make meaningful contributions to society.

To the parents and guardians entrusting us with their children's education, I want to assure you that we recognize the weight of your decision. We are committed to providing a nurturing and inclusive environment where students can thrive academically, emotionally, and socially. Your children's well-being and success are our top priorities, and we are dedicated to supporting them in every step of the way.

To our prospective students, I encourage you to embrace this opportunity with open arms, dream boldly, and seize the possibilities. While the road may be challenging, it is also filled with boundless opportunities for growth, discovery, and personal transformation. **FROM THE PRINCIPAL'S DESK**

Namaskar,

Dimoria College, situated in the urban fringed of Guwahati city with a travel distance of 35 km from the state capital of Assam has a glorifying history of nearly 45 years. The college was established in the year 1979 in a small classroom at Khetri High School with fifty-seven students and three teachers. Late Pandit Binanda Chandra Barman was the founder Principal (1979-80) followed by Late Hari Prasad Medhi (1980 - March, 1981). Sri Ram Charan Bharali assumed the stewardship of the College on 14th April, 1981 and retired on 31/12/2010. Arts Stream of the college was brought under deficit grants-in-aid system on 1, February, 1986. The Science Stream was brought under deficit grants-in-aid system in 1996. Always striving for the goals of greater excellence, the college engulfs a rich mosaic of 22 departments offering graduate courses and offers Post-Graduate degree in 4 subjects including emerging Science Course in Eco-Restoration and Environmental Management. The college has an adorning antiquity of being the third college of Assam to have been accredited with 'A' in the assessment conducted by NAAC in the year 2010, being the only rural Post Graduate Institution in Assam. After a gap of 13 years due to several administrative reasons, the college has bounced back in restoring its splendid past of academic excellence, Dimoria College, Khetri received 'B++' in the latest NAAC accreditation process conducted in the years 2023. The present-day college has a sprawling campus of more than twenty-four bighas of land including built up areas and a spacious playground that craters academic requirement aspirations of nearly 2500 students studying in various educational levels offer by the college. Facilities include a well-stocked modern library with photocopying and Internet facility, Departmental Libraries, well equipped laboratories, a Computer Science cum IT Department, hostels for girls together with a multipurpose Auditorium complex. The college has completed many minor and major research projects and continuing several others sponsored by the UGC. Presently more than one hundred forty teaching & non-teaching staff are working in the college for promotion of teaching, learning, evaluation, innovation, research and extension services for the greater goal of social upliftment. Here at Dimoria College, Khetri we are committed to fostering a nurturing environment that promotes academic excellence, personal growth, and holistic development. Our curriculum is designed to equip students with the skills, knowledge, and values necessary to thrive in an ever-changing world. As you explore this prospectus, you will discover our wide range of academic programs, extracurricular activities, and support services tailored to meet the diverse needs of our students. We take pride in our dedicated faculty and staff who are passionate about education and are committed to providing a stimulating and safe learning environment. We invite you to embark on this journey with us and become part of a community that values curiosity, creativity, and character. Together, let us inspire and empower the next generation of leaders and lifelong learners.

DIMORIA COLLEGE

A Brief History-Cum-Profile

Dimoria College is the brainchild of a group of highly motivated social entrepreneurs who in the seventies dreamt of bringing the gospel of higher education to this relatively backward tribal belt area of Dimoria. Led by the indomitable zeal of patrons of learning like late Padmakanta Deka (Founder President), Late Santa Ram Deka (Founder Secretary), late Prasanna Deka, Late Gopinath Sarma, Late Krishna Kanta Bhuyan, the people of Dimoria started a public campaign for the establishment of a College. Their efforts were augmented by donation and cooperation from all sections of local society ranging from rich businessmen like Omkarlal Agarwala to humble thelawalas and firewood sellers.

The college was inaugurated on 29th August, 1979 in a small classroom at Khetri High School with fifty seven students and three teachers. Late Pandit Binanda Chandra Barman was the founder Principal (1979-80) followed by Sri Hari Prasad Medhi (1980 - March, 1981). Sri Ram Charan Bharali assumed the stewardship of the College on 14th April, 1981 and retired on 31/12/2010. Dr. Biman Kumar Bhatta has joined this college as principal on 27/06/2020.

Arts Stream of the college was brought under deficit grants-in-aid system on 1st February, 1986. This development encouraged the college to open Science Stream in H.S. level in the year 1987. B.Sc. Course was started in 1992 and the Stream got a fillip with the inauguration of the Ambedkar Science Block by the then Hon'ble Vice-President of India, Sri K. R. Narayanan. The Science Stream was brought under deficit grants in-aid system in 1996.

Always striving for the achievement of set goals of greater excellence, the college opened Post-Graduate Classes in Assamese, Political Science and Economics in 1992. Famous Scholars like Prof. V.V. Rao & Sahityacharya Prof. Golak Ch. Goswami used to take P.G classes in the early years and help and encourage the college with their invaluable advice and wisdom. A new feather was added to the P.G wing in 2004 with the introduction of a totally unique and emerging Science Course in Eco-Restoration. In 2008, Dimoria College earned the rare distinction of signing a memorandum of understanding with Brandenburg Technical University, Cottbus, Germany on mutual exchange of students and faculty and evaluation of courses of study along with mutual recognition of Eco-restoration students' performance in Dimoria College. It was followed by the introduction of a P.G Course in Environment Management in the year 2008. Apart from these, several U.G.C. sponsored Vocational Courses along with Distance Education Programme under the IGNOU have also been introduced. In recognition of the values and social orientation of the College, U.G.C. has provided it with a Centre for Ambedkar Studies with the objective of spreading the teachings and philosophy of Dr. B. R. Ambedkar.

In addition to the hard work and perseverance of the college community, we are blessed to have among our patrons, a great intellectual figure like former Prime Minister Dr. Manmohan Singh who has visited the college on more than one occasion and extended his helping hand in the completion of various projects of the college. Being the only rural Post Graduate Institution in Assam, Dimoria College was awarded 'A' Grade by NAAC in recognition of its role as a harbinger of social change through the instrument of higher education. The year 2010 saw our college being placed in the coveted position of a College with Potential for Excellence by the UGC where by it has earned the highly cherished membership of a select club of 149 colleges out of more than 6000 colleges throughout India under UGC's recognition. The august arrival of Former President of India Dr. A.P.J. Abdul Kalam to our college on 6th February, 2010 to motivate our students in the path of nation building was the jewel on the crown of the above achievements. Thus, from a very humble beginning in 1979 the college has matured itself into a full-fledged centre for learning and excellence.

The present-day college has a sprawling campus of more than twenty-four bighas of land including built up areas and a spacious playground. Facilities include a well-stocked modern library with photocopying and Internet facility, Departmental Libraries, well equipped laboratories, five P.G. Departments, a Computer Science cum IT Department, a Language Laboratory, a Canteen for students, teachers & non-teaching staff, two five separate hostels for girls together with a multipurpose Auditorium complex. The college has completed many minor and major research projects and continuing several others sponsored by the UGC. Presently more than one hundred forty teaching & non-teaching staff is working in the college for promotion of teaching, learning, evaluation, innovation, research and extension services for the greater goal of social upliftment.

Long live Dimoria College.

Dimoria College Students' Union

D.C.S.U. is the General Body of the students of the College. Its membership is compulsory for every Dimorian. Office bearers are elected annually as per the constitution of the Student's Union.

The FYUGP course structure of Gauhati University

1. The credit framework

Each semester of a 4-Year Bachelor Degree (FYUGP) course will have a maximum of 22 credits with a total of 132 credits for 3-Year Degree Course and 176 credits for a 4-Year Degree Course. Apparently, the Masters Course will have 44 credits in a year with a total of 88 credits in two years. The baseline for total credits is 120 for a 3-Year course and 160 for a 4-Year course. So, a student can choose to have a total credit between 120 and 132 by the end of a 3-Year Bachelor Degree course.

1.1 Division of credits

The basic division of credits for a 3-Year Bachelor Degree course is shown in Table 1. The basic division for a 4-Year Bachelor Degree is shown in Table 2 and Table 3. In the 4th year, there are however two options – (a) Degree with Honours and (b) Degree with Honours and Research. Overall, a 3-Year Degree course consists of two sections – a Core Section and a Common Section. While the Core Section consists of Major and Minor papers, the Common Section is divided into 5 sub-groups.

1.1.1. Multi-disciplinary Courses

These are 3-credit courses spanning over five different groups of subjects – (i) Natural and Physics Science, (ii) Mathematics, Statistics, and Computer Applications, (iii) Library, Information, and Media Sciences, (iv) Commerce and Management, and (v) Humanities and Social Sciences. The level of these courses is of Class XII.

1.1.2. Ability Enhancement Courses (AEC)

This is a 8-credit course covering Modern Indian Languages (MIL) and English Usage (Communication).

Degree with Major/Minor						120 Credits	
Core		Common Course					
Major	Minor	Multi-Disc	AEC	SEC	VAC	Internship	
60	24	9	8	9	6(8)	4(2)

Table 2: Minimum division of credits for a 4-Year Bachelor Degree Course with Honours

1.1.3. Skill Enhancement Courses (SEC): These are various skill courses with total credit allocation of 9. In our structure, we shall have four skill courses starting from Semester III.

1.1.4. Value-based Courses (VAC): The VAC courses will come from four sub groups – (i) Understanding India, (ii) Environmental Science, (iii) Digital and Technological Solutions, and (iv) Health & Wellness, Yoga Education, Sports, and Fitness. All together they will have a credit allocation of 6.

1.1.5. Internship: All students are to carry out an Internship with a credit allocation of 4.

Degree with Honours & Research		160 Credits
Research Methodology	Research Project/Dissertation/Internship/Skill

Table 3: Minimum division of credits for a 4-Year Bachelor Degree Course with Honours and Research.

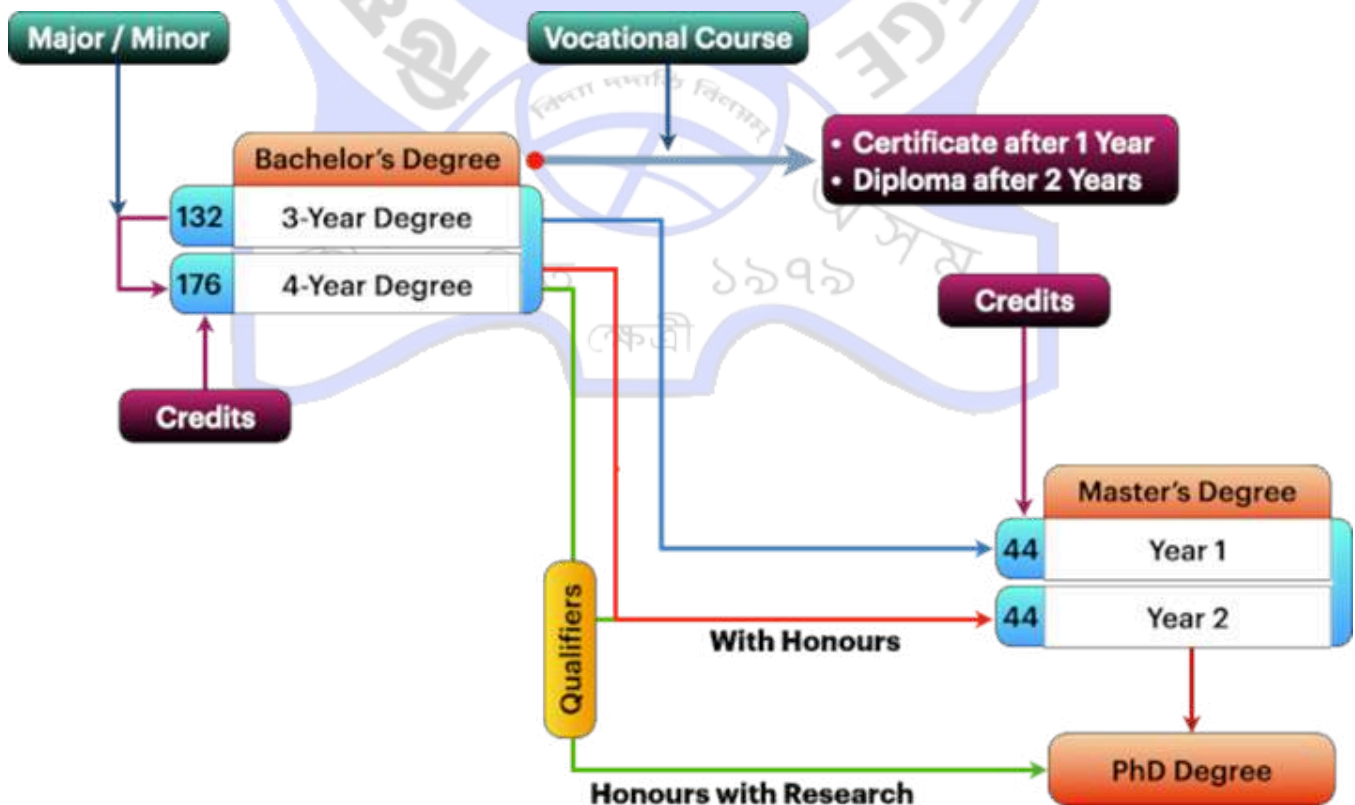

Figure 1: Progression scenario

1.1.1. Description of divisions

As shown in the figures, the base credit score for a 3-Year course is 120 and a student needs to have at least 50% of 120 i.e. 60 credits in a subject to qualify for a major in that subject. In the same way a minor course will have 12 credits and a student can have two minors with a total of 24 credits. Apart from the Major subject, if a student can obtain 48 credits in a particular subject, the student will get a double major.

1.1. Allocation of credits

Following are the allocation of credits for different courses (papers)

- Core (Major & Minors) 4 Credits (3 Theory + 1 Practical OR 4 Theory)
- Multidisciplinary 3 Credits (2 Theory + 1 Practical OR 3 Theory)
- AEC 4 Credits (all theory)
- SEC 3 Credits (2 Theory + 1 Practical OR 3 Theory), 2 Credits (1 Theory + 1 Practical OR 2 Theory)
- VAC 3 Credits (2 Theory + 1 Practical OR 3 Theory)
- Internship 4 Credits

2. Progression

The progression during the whole course structure is shown in Fig.1. As seen from the figure, there are three pathways to the doctoral course or PhD course:

- After 3-Year Bachelor Degree: After a 3-Year Bachelor Degree, a student can take admission in the 2-Year Masters Course and advance to doctoral program. This pathway is similar to what we have now.
- After 4-Year Bachelor Degree with Honours: Students completing a 4-Year Bachelor Degree with Honours will take admission into the second year of Masters program and can advance to the doctoral program.
- After 4-Year Bachelor Degree with Honours and Research: This pathway is for only exceptional students who can directly advance to a doctoral program right after graduation. So, there shall be a necessary qualifier process which will ensure that only high quality motivated students can take this pathway. All other students must go through the second year Masters program in order to be able to take admission in a doctoral program.

Red Ribbon Club

Red Ribbon Club is sponsored and supported by the Assam State AIDS Control Society (ASACS). The students are trained in AIDS awareness and motivated for voluntary Blood Donation.

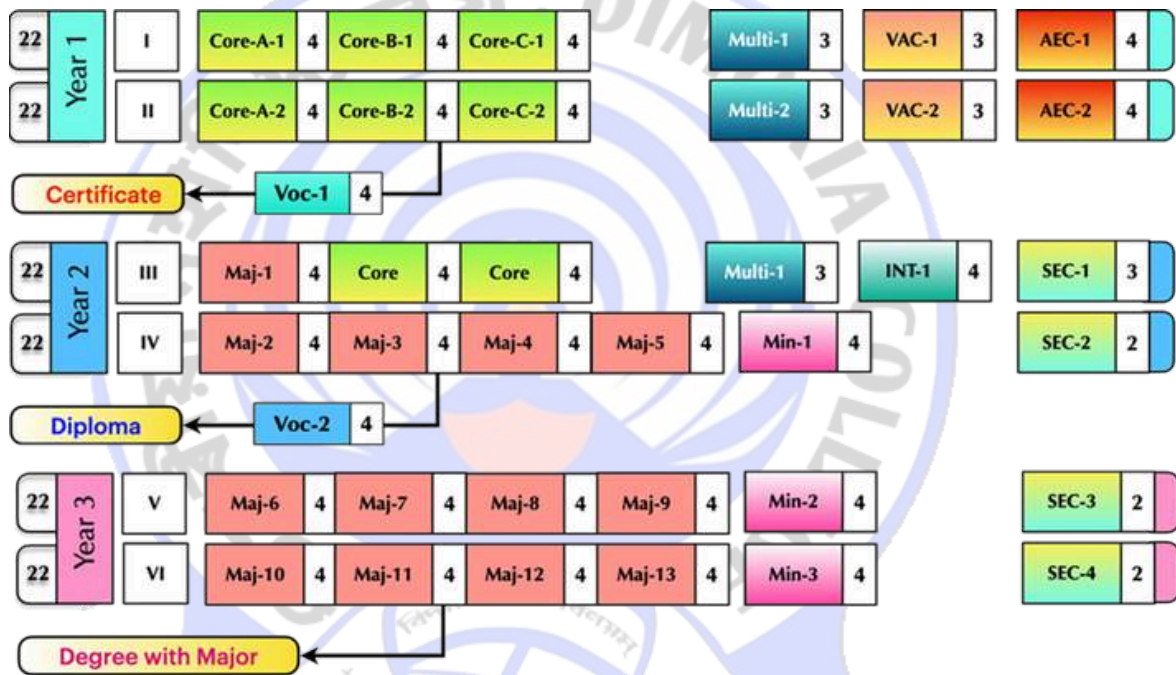

Course Structure

Here, we describe the 3-Year Bachelor Degree course. The 4th year of the Bachelor Degree course will be dealt separately. The detailed course structure is represented in Figure 2. This structure depicts a general scenario where a student will choose one major course and two minor courses. It is to be noted that in order for a re-entry into the 3-Year course in Semester III or V for students who have opted for leaving the course after the 1st and 2nd year respectively, additional vocational course of 4-credit has to be done by the student on exit.

In what follows, we give four examples for

- **3-Year Bachelor Degree with one major and two minors**
 - Degree obtained: For example, Bachelor Degree in Arts with Major in History and Minor in Political Science and Economics.

- **3-Year Bachelor Degree with three minors:**
 - Degree obtained: For example, Bachelor Degree in Arts or Bachelor degree in Science
